Kristina Ripatti, a 10-year veteran of the Los Angeles Police Department, was shot and paralyzed by a robbery suspect in June 2006. Following a renovation by ABC's "Extreme Makeover: Home Edition," her home includes NuStep to aid her rehabilitation routine. Ripatti's inspiring story of courage, enhanced by the dedication and care of people like you in

rehabilitation services and the fitness arena, will help you remember why you chose to enter the transformative professions embodied in the UIC College of Applied Health Sciences. Learn more about her transformational journey at www.nustep.com.
